 <p>Regulatory Managing pests, dog control, building control (safety and consents), and managing our harbours for maritime safety.</p>	0.3	12.8	39%
 <p>Regional development Achieving economic development, marketing and tourism, parking, irrigation and small township programme.</p>	1.1	6.9	61%

Rates Movements 2024/2025

The total rates and charges for 2024/2025 are estimated at \$99,823,986 (GST exclusive). This represents an increase of \$11,744,394 (13.3%) on last years levy.

Your actual rate increase will depend on:

- the change in your land value compared to the rest of the region due to the 1 July 2023 revaluation
- your land use (rural/residential or commercial/industrial)
- what part of the district you live in
- what services you receive (eg water and sewerage)

The significant contributors to the overall rates increase can be seen in the 2024/2034 Long Term Plan (Rates Information) on our website. Hard copies are available at our Customer Service Centres and the public libraries.

To compare a property's rates with last year's rates you can visit the rates comparison model on our website: marlborough.govt.nz

2024-2025 Rates Remission and Postponement Policies

Marlborough District Council has policies for remission and postponement of rates, including for Māori freehold land. You can find out full details on our website or by calling into a customer service centre.

Rates remissions

The Council has rates remission policies applying to certain land or ratepayers in the following categories:

- for community, sporting and other organisations
- for land voluntarily protected for natural, historic or cultural purposes
- for residential land in areas zoned commercial or industrial
- for land farmed as one entity where the land is either not adjacent or not in the same ownership
- for agricultural or horticultural land where there are charges for more than one dwelling or an accommodation unit which is provided to the owner or staff free of charge
- for a rating unit where there are more than one set of charges and one additional unit is occupied by family members on a rent free basis
- for Urban Residential 2 Greenfields land so that it is not unduly penalised by zoning decisions
- for land that is subdivided in either four to nine or ten or more rating units
- for rates penalties where it is deemed fair and equitable or the payment was late due to circumstances outside of the ratepayer's control
- for water losses due to a leak
- for ratepayers experiencing extreme financial hardship on a case by case basis
- for residential land affected by natural disaster
- for general-type annual charges and targeted charges on commercial SUIPs less than 20m²
- for residential rural rating units with an out of district connection to the combined water or sewerage scheme
- Māori freehold land under development

Rates postponements

The Council has rates postponement policies applying in the following categories:

- to assist ratepayers experiencing extreme financial hardship
- to offer ratepayers over 65 years of age the opportunity to postpone all or some of their rates

Māori freehold land

The Council has a remission and postponement of rates policy on Māori freehold land which is considered using the same criteria as for other remissions and postponements.
